

TS-MC5 NO/NC MAGNETIC SWITCH

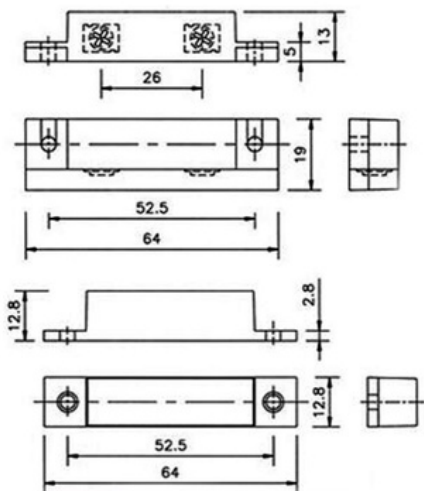

Product Overview

The TS-MC5 is a compact surface-mounted magnetic switch for door, window and security control applications. Its 3-terminal design allows the installer to select NO or NC output based on the alarm or access-control system requirement.

Key Specifications

Parameter	Specification	Parameter	Specification
Product Model	TS-MC5	Reference Model	MC5
Product Type	Magnetic switch	Housing Material	ABS
Contact Output	NC / NO / COM	Max Current	0.5 A
Max Voltage	100 V	Sensing Distance	15-20 mm / 20-25 mm
Max Switching Power	10 W	Colour	White
Dimensions	64 x 19 x 12.8 mm	Application	Door, window, alarm, access control
Mounting Method	Screw installation		
Packing	10 sets / bag		

Dimension Drawing

All dimensions in mm. May vary by production batch.

Specification is based on supplied product details. Product appearance and packaging may vary without prior notice.

Installation Notes

- ☐ Mount the magnet and switch parallel and aligned.
- ☐ Keep the operating gap within the rated sensing distance.
- ☐ Verify NO / NC terminal function with a multimeter before final wiring.
- ☐ Use only within the rated voltage, current and switching power.
