

ENC-630/B
BNC TWIST-ON FEMALE
CONNECTOR
FOR RG59 COAXIAL CABLE

75 Ω VIDEO SYSTEM	RG59 CABLE TYPE	TWIST-ON TERMINATION
----------------------	--------------------	-------------------------

A practical field-termination connector for joining RG59 coaxial cable to equipment fitted with a BNC male interface. The twist-on design allows fast installation without a crimping tool.

Parameter	Specification
Model	ENC-630/B
Connector	BNC coaxial Female connector
Cable compatibility	RG59 coaxial cable
Nominal system impedance	75 Ω
Termination method	Twist-on cable termination
Typical use	CCTV, analogue video, surveillance and general 75 Ω coaxial signal connections
FEATURES, APPLICATIONS & INSTALLATION	
KEY FEATURES Fast field termination No crimping tool required Compact straight connector Removable and serviceable	TYPICAL APPLICATIONS CCTV camera systems DVR and monitor connections Analogue video distribution RG59 cable repair or extension
